

Small tech. Big play.

Tee up the fun! Sphero Mini Golf packs a ton of play into its golf-ball sized frame. Equipped with a gyroscope, accelerometer, and colorful LED lights, this robot does a lot more than any other ball you'll find on the links—or in the living room. Create your own mini golf course then control Sphero Mini Golf's movements several ways in the Sphero Play app. Master Joystick, Slingshot, or Tilt mode and you'll be celebrating your first hole-in-one before you know it—no clubs necessary!

KEY FEATURES & BENEFITS

Have a HOLE lotta fun

This golf-themed Sphero Mini packs a ton of fun into a tiny programmable robot the size of a real golf ball. Equipped with a gyroscope, accelerometer, and colorful LED lights, this app-enabled robotic ball lets you drive, play games, and code using our free apps.

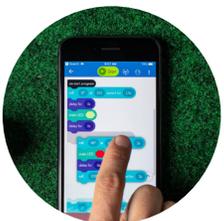

Drive Modes

Control your robot toy several ways with the Sphero Play app using Joystick, Slingshot, or Tilt mode. Create your own mini golf course, program a hole in one, or challenge a friend to a game.

Play Games

Use Sphero Mini as a game controller for arcade-style games in the Sphero Play app. Perfect for playing on the go or with limited space. Choose from 3 different games - shoot through space, speed through a tunnel, or smash a polygon of bricks. With 1 hour of play time, Sphero Mini is the next big thing.

Learn to Code

Use the Blocks drive mode to give your coding robot basic drag and drop coding commands. Looking for more of a challenge? Download the Sphero Edu app for more ways to program your educational bot, including JavaScript and Swift.

TECH SPECS

- Removeable golf shell
- Bluetooth Smart connection (100 foot range)
- Micro USB charging cable
- Height: 42mm / Width: 42mm / Weight 46g
- Top speed: 1 m/s
- LED lights glow in tons of colors
- Contains gyroscope motor encoders and accelerometer sensors
