

Tiny tech, endless STEAM learning.

Sphero Mini packs tons of fun and learning into a tiny, app-enabled robotic ball. At an entry-level price point, this table-top bot is perfect for all students and learning spaces.

KEY FEATURES & BENEFITS

STEM Activities

Foster creativity through discovery and play with Mini and the Sphero Edu app, all while laying the foundation for computer science.

Play Games

Use the ball as a controller with the Sphero Play app to dodge and destroy asteroids, race through a rotating tunnel, or smash a polygon of bricks.

Learn to Code

With the Sphero Edu app, drag and drop blocks, or write your own JavaScript text to program your robot.

Drive Modes

Tilt your device. Pull back and slingshot forward. Use the Joystick. Whatever you're in the mood for, the Sphero Play app has it.
