sphero

CODE MATS & ACTIVITY CARDS

Pair. Play. Learn.

This two-sided mat offers a simple, accessible way to learn block-based coding, basic math principles, and collaborative problem-solving with any round Sphero robot. The Code Mat comes with three sets of 10 double-sided coding cards that provide guided, hands-on coding lessons. Choose your theme or purchase both!

sphero GLOBAL CHALLENGE

You can also use the Sphero Space Code Mat to help in Sphero's Global Challenge!

Sphero Space & Soccer

Choose Sphero Space & Soccer Mat and blast off into orbit and explore the solar system with Sphero Outer Space while gaining the foundations for computational thinking. Or, dribble down the field in hopes of programming a goal for your team with Sphero Soccer Pitch.

Sphero City & Golf

Choose Sphero City & Golf Code Mat to tee up your Sphero robot and take a swing with Sphero Golf while exploring concepts like distance, speed, math fundamentals, and basic coding. Program your robot to navigate around Sphero City using Draw, Blocks, or Text programming.

KEY FEATURES & BENEFITS

Activity Cards

The Sphero Code Mat includes 3 packs of activity cards that feature the same fun coding challenges and games.

Two Sides

Two unique sides open up unlimited opportunities for hours of learning and play.
